INCIDENT EFFORTS LIST

This list is used on all incidents, but is only assessed after the first run through the incident.

Silently assess this list to the first read, directing the question to the exact location of the entity. Valid reads can occur anywhere during the line. Silently indicate the charge to the entity. For example, if (A) reads the indication would be "*This incident contains the effort to stop*."

Next, move the entity through the whole incident, step by step, repeatedly putting the entity's attention on the effort just found by assessment.

Repeat the assessment, indication and running until the incident is flat, the entity blows, or an earlier incident is indicated (by a rising tone arm). Use one column per incident to save on paper: ✘ for no read. **SF**, **F**, **LF** for reads. Subsequent assessments of the same incident follow on down the same column, starting by re-assessing the line which read on the previous assessment.

Time											
TA											
A In this incident, is there an effort to STOP?											
B In this incident, is there an effort to WITHDRAW?											
C In this incident, is there an effort to both STOP and WITHDRAW?											
D In this incident, is there an effort to SUPPRESS something?											
E In this incident, is there an effort to INVALIDATE something?
