

## Chakra Running

The Valence Process is used after picking a random **Chakra**. A read must occur on either selecting the Chakra location or on silently saying **HELLO** to that just location. Otherwise, pick a different Chakra.

The **Chakra** are well known spiritual centres in many mystical practices originating from India. In these locations you can find powerful entities which could easily overwhelm a mortal (pre-Clear). By the time you contact them on BTCC§2 you should know that you too are an immortal being and therefore they are not so imposing. Treat them with great respect but **not** propitiation.
