

## PART L: Clearing Course §4

### THE LOWER LP (LINE PLOT) GPM

#### *The PICTURES GPM*

This part has 10 GPMs of eight pairs each. The patterns are identical apart from the opposing adjectives in the middle.

Remove any charge on the adjectives themselves, first individually, then as a pair, before flattening them in the GPM.

If the GPM lines are not reading well with a particular adjective, you may have to hunt around for the correct one. An alternative adjective has been given on the last page for the last GPM. If the alternative makes the appropriate GPM line read well, makes sure you also go back and flatten the original version of all lines to make doubly sure.

Take each line to 3 consecutive no-reads or an F/N. An F/N on a line is not indicated to the pc, but is marked on this sheet. An F/N on a line is not used to terminate the running of a GPM. However, an F/N at the end of this GPM sequence is indicated to the pc.

*Say the **BOLD** phrase out aloud, spot the thetan, and say the phrase aloud whilst spotting the thetan. Do these in whichever way most easily produces reads. (Do not say the numbers.)*
